

# Lands Act Review

The Department of Municipal and Intergovernmental Affairs is conducting a review of the current Lands Act and its service delivery model. The Lands Act guides the management and allocation of the province's Crown lands.

To ensure a comprehensive approach to the review a Review Committee was established which comprises professionals with expertise in the areas of law, policy and process improvement.

An important aspect of this review is consultation with the people of Newfoundland and Labrador and stakeholders. Consultation will help the Review Committee in developing informed recommendations on how to modernize the Act and make the Crown lands application process simpler and the service delivery model more effective.

Over the next several weeks, the Review Committee will host public consultations and we encourage all interested parties to participate.

**Public sessions will be held in the following communities from March 19 to April 7, 2015. Click on the button below to link to the registration page:**
